 SUPERFUND RECORDS

Dear Mr. McCoy:

This letter is a response to your concern for the need to close a well on your property which is in an unsafe condition.

Review of the well's location and the immediate need of the ongoing study at the Martha C. Rose site show no near term need to sample the well. In fact, if the well is in poor condition, it may not be practical to sample the well in any event. If the ground water under your property is to be sampled, a new monitoring well will be drilled.

There is no objection on the part of the Environmental Protection Agency to your well being sealed. If I can be of any further assistance, please do not hesitate to contact me at (913) 236-2856.

Sincerely yours,

Steven E. Kinser
